EDUCATION

The Ohio State University — **Columbus, Ohio**

Bachelor of Science in Industrial Engineering — ***May 2028***

Track: Human Systems Integration & Design

- **GPA: 3.9,** Dean's List

PROFESSIONAL EXPERIENCE

6 Star Concrete — **Columbus, Ohio**

Product Designer — ***Jul 2024 – Present***

- Partnered with leadership to identify operational inefficiencies and translate needs into product requirements.
- Mapped expense-tracking workflows and designed digital processes to improve spending visibility and accuracy.
- Developed a centralized receipt-management solution, reducing invoice preparation from a full day to 1–2 hours.

Nexoraa — **Remote**

Operations Engineering Intern — ***Jun 2026 – Aug 2026***

- Conducted stakeholder interviews and analyzed end-user workflows to identify operational pain points
- Developed and implemented standardized operating procedures, reducing process execution variance by 25%.
- Improved internal documentation and task handoff processes, reducing new-member onboarding time by 30%.

PROJECTS

Receipt Tracker | Python, Streamlit, Supabase

- Engineered a centralized application for receipt submission, expense categorization, and job-level financial tracking.
- Implemented role-based access controls and manager dashboards to enable secure, role-specific data visibility.
- Connected receipt-image uploads and structured expense records to job-level reporting and invoice preparation.

AI Documentation Factory | *Full-Stack LLM Pipeline*

- Built an AI documentation pipeline to automate handoffs and accelerate customer onboarding workflows.
- Implemented automated verification and quality-control mechanisms, reducing review requirements by 65%.
- Experimented with Claude prompt variations and evaluated generated outputs for accuracy.

Knowledge Garden | AWS AI Everywhere Hackathon

- Collaborated with a four-person team to develop an AI-powered learning prototype addressing student engagement.
- Conducted usability testing with 10 student users to identify friction points and evaluate engagement.
- Evaluated AWS software engineer feedback to strengthen user motivation and product value.

LEADERSHIP EXPERIENCE

Kappa Theta Pi (Technology Fraternity) — **Columbus, Ohio**

Project Lead — ***Sep 2025 – Present***

- Led cross-functional student teams, translating user needs into actionable product requirements and deliverables.
- Coordinated milestones, delegated responsibilities, and aligned team execution to ensure successful project delivery.

Asian Business Student Association — **Columbus, Ohio**

Director of Operations — ***Sep 2025 – May 2026***

- Led operational coordination across 10+ professional and cultural events, managing cross-functional collaboration.
- Analyzed event spending and logistics to optimize budgets, reducing annual logistics expenses by 20%.

SKILLS AND INTERESTS

- **Product Management:** Product Requirements, Stakeholder Interviews, User Research, Business Analysis, User Testing, Human-Centered Design, Workflow Optimization
- **Technical**: Python, Java, Next.js, Streamlit, Supabase, Claude API, Git/GitHub
- **Software & Tools:** Figma, Microsoft Excel (Advanced Formulas & Data Analysis), Quantitative Analysis
- **Language**: Mandarin Chinese (native), English (fluent), Taiwanese (proficient)
